# About

Cardinal Research is a Canadian polling company deeply committed to understanding and analyzing the perspectives of Canadians across the nation. Our work, which values and amplifies the voices of Canadians, identifies the key issues influencing voter behaviour, providing valuable insights that contribute to a more informed and engaged electorate.

Leading our team is Curtis Fric, the founder and managing director of Polling Canada, the largest online public data aggregation organization in the country. With over six years of experience in political data, Curtis has built a reputation for delivering insightful and engaging content that resonates with diverse audiences.

His collaborations with non-partisan organizations, market research firms, and political figures have positioned him as an influencer in the Canadian political scene.
